SUMMARY

Motivated Computer Science and Engineering student with experience in web development and growing knowledge in Machine Learning and Artificial Intelligence. Skilled in building responsive web applications using React.js, Laravel, Node.js, and working with Python for data-driven solutions. Seeking an opportunity to apply technical skills and contribute to innovative projects.

EDUCATION

- University of Business and Technology-UBT** **Oct 2023 - Present**
BSc Computer Science and Engineering
- Awarded Scholarship in 2025 and 2026 for outstanding GPA (above 9.5).
- Xhevdet Doda High School** **Sep 2020-Jun 2023**
- Graduated with 5.0 GPA. "Distinguished Student " award for academic excellence in 2023

TRAININGS

- Full Stack Development - Tectigon Academy** **Feb 2025- May 2025**
- Machine Learning, AI & Cloud Computing Training - ICK** **Feb 2026 - Present**
- Working with Machine Learning and AI concepts including classification models, data preprocessing, and computer vision.
 - Developed ML projects involving Spotify hit prediction and face recognition datasets using Python and ML libraries.
-

EXPERIENCE

- Internship, Tectigon Academy** **Jun 2025 - Sep 2025**
- Developed UrbanGaze, a full-stack e-commerce platform, with user and admin panels, offering product search, filtering, wishlist, cart and online payments.
 - Developed responsive frontend with React.js and backend services using Laravel and Stripe integration.
- [GitHub Repository](#)
-

PROJECTS

- dardanIA – AI Civic Assistant | 2nd Place, Build with AI Hackathon**
- Built an AI-powered civic assistant for reporting urban issues, image analysis, and multilingual public-service guidance.
 - Developed collaborative features for structured report generation in a fast-paced hackathon environment.
- Prison Management System -Team Project (UBT Lab Course)**
- Developed backend CRUD operations and role permissions using Node.js.
 - Built responsive UI components with React.js and Bootstrap. [GitHub Repository](#)
- TherapyTalks - Team Project (UBT Software Systems Design Course)**
- Contributed to full-stack development using Next.js, Laravel, PHP, and MySQL.
 - Implemented features including professional search, session booking, real-time chat, and Jitsi video consultations. [GitHub Repository](#)
-

SKILLS

- Technical Skills:** HTML, CSS, React.js, PHP Laravel, SQL Databases, Node.js, Git, Java,Python, Machine Learning, Data Analysis
- Soft Skills:** Problem Solving, Teamwork, Communication, Time Management, Adaptability.
- Languages:** Albanian, English.
